Allan's TOP 10 PLANTS FOR OKIE LANDSCAPES 2015

Dear Gardening Friend,

Finding just 10 plants that I like in each category wasn't easy! At any rate I hope this list helps you with your plant selections this year.

To find out what these plants look like I suggest you pick up any one of the many landscape books available in your local bookstores and garden centers, or check them out on line.

Landscape nurseries will be your best resource for information on planting instructions and plant care requirements.

Thanks for listening to
