The President The White House Washington 25, D.C.

my Dear Mr. President,
I am presently a freshman
attending Ohio State University. I also
have been elected to the Undergradreate Student of overnment. I run for
election because I am interested
in becoming involved if feel that becoming involved in the proper way
can only better an institution. I am
also a pre-law major and I am interested in becoming involved in politics.
My love for politics also preempted
me to run for Undergraduate Severnment.
The reason I am writing this letter

is to mule sure my opinions get dineith to you through our billwrit President novice Forcett. I jumped at the shance of being able to make sure that you read my letter I think that you, us for us I can judge, are not only a great President but an even greater person. I say on even greater person because you surifice your political future for the good of the country. No amerrian would ask more. You were faced with a bleck economic preture, welfare recipient problems, a dragging war, and much more you have either cleared or have started the wheels turning towards the easing of our problems. That is why I am "burned up" when someone says "Wate nison done" However, I feel I have brought many to the fold.

get though to you, I am also jumping at the stance to ask you a probably redictous favor. I am a great admies of yours. I, infact, worked John R. Kasich

for you in 1968 in Pittsburgh, Pa and I som you when you spoke ut the arena in littsburgh. When Besident Towest told me that he was going to see you, I told him Iwould pay a #1,000,000 to be in his place. Since I don't have a million dollars, I amrelying on your grace. Would it be possible for me to come to the White House to talk and see you sometime in the future. I would immediately pass up a Rose Bowl trip to see you my parents would permit me to fly down und see you anytime and I how my grades wouldn't suffer I know how longy you are and this is propably a rediculous request but to me it is tie fle suit mes mark a set bluon at all possible, I would appreciate a chance all I can say isplease.

Finally, I can see a big "high Victory" in 12. There may be just one problem in your way but I'm sure you'll clear it. I brow you are looking about but not wanting to. But, again I say, "hison in 12".

John H. Karill
