The Dr.Pepper and the spam were wonderful.Now I am fasting until Sunday night at sundown.We are fasting for a messianic holiday.It's funny because when it is a religious fast I don't get hungry.Go figure God is good all the time.I got my intestinal tract clean but that still hasn't helped the pain.They think it might be some kind of polip on my colin wall.whatever that means.I am still praying for it to get better.How are your headaches?We are praying for them.I hope they are better.It's almost counttime so I will get off of here.I love you the most!!!Kiss michael for me!!!oxoxoxo

You are the best sister in the world!!I should get my stuff checked out on Friday.They are going to do some kind of barium test.I am going to be alright.I just can't eat this meat!It is awful.Everytime I eat it it blows up in my intestines and makes me sick.I just want them to find out what is hurting me so bad.I love you the most and Michael too.oxoxoxox
